ABOUT ME

Passionate **full-stack software engineer** with a drive for creating innovative digital solutions that transform user experiences. **AWS-certified** developer who thrives on architecting scalable systems and implementing cutting-edge technologies. From building AI-powered applications to optimizing complex microservices, I excel at turning technical challenges into elegant solutions. Currently advancing my expertise in **artificial intelligence through graduate studies** while contributing to next-generation gaming platforms. I believe in writing clean, maintainable code and fostering collaborative environments that inspire technical excellence.

EXPERIENCES

Software Developer - Panteon Games

Dec 2024 - Present, Ankara, Turkey

- Architected and migrated **high-traffic control** panels for mobile games serving **50,000+** concurrent players, leveraging **AWS Services**, **Next.js**, and **Nest.js** to deliver seamless user experiences with **95%** uptime.
- Built cost-efficient event tracking systems with dev teams, cutting costs by **~85%** and boosting retention by **18%** and purchases by **22%**.
- Developed an **AI-powered chatbot** for game support page that handles **5,000+** player inquiries daily with an **65%** resolution rate, reducing support ticket volume by **25%** while enhancing player satisfaction scores.

Software Developer - Moneo (Outsource Karaca)

Mar 2023 – Dec 2024, Istanbul, Turkey

- Engineered an optimized codebase for **Kommunity.com** using **React-Typescript** and **Node.js**, reducing **technical debt** by **25%** and enhancing maintainability.
- Architected a comprehensive management panel using **Laravel** and **React.js** for **Karaca**, streamlining control over thousands of products and campaigns.
- Elevated customer shopping experience through **UX/UI with React.js and jQuery**, increasing average user time on site by **30%**.
- Refined microservices architecture using **Nest.js** and **Laravel**, decreasing server resource **consumption** by **25%** and improving data **retrieval speed** by **20%**.

Software Developer - Nette Interactive

Oct 2022 - Jan 2023, Bursa, Turkey

- Innovated an automated deployment process for corporate web pages using **Laravel**, reducing deployment time by **40%**.
- Designed engaging interfaces with **Vue.js**, pure **HTML**, **CSS** and **JS**, increasing **user engagement** by **25%** and reducing **bounce rates** by **15%**.
- Streamlined projects for **Dawood Timber** and **Chnoca Perfume**, boosting online **conversions** from customers by **30%**.

Software Developer Scholarship - TUBITAK

Oct 2021 - Feb 2022, Bursa, Turkey

- Contributed as a scholarship developer to **PyNar**, an innovative **open-source project** supported by Turkey's national research council.
- Collaborated with a multidisciplinary team to architect and develop robust **backend APIs** using pure **PHP**, ensuring scalable and maintainable code architecture.
- Enhanced user experience through modern frontend development with **Vue.js framework** and **Bootstrap 5**, creating intuitive and **responsive interfaces** that seamlessly integrated with backend services.

EDUCATION

Bachelor of Science, Computer Engineering

Bursa Technical University, Bursa, Turkey

- Graduated with honors, ranking **3rd** in the department

- Core Team Member, **Google Developers Student Club**: Collaborated with peers on various projects, fostering teamwork and knowledge sharing.
- Leader, **Huawei Campus Ambassador**: Organized tech talks and hands-on sessions, improving student engagement with Huawei products.

Master of Science, Computer Engineering

Gazi University, Ankara, Turkey

- Ongoing graduate studies with a focus on Artificial Intelligence, including coursework and research in machine learning, deep learning, and data-driven systems.

SKILLS

Language : PHP, JavaScript, TypeScript, Java

Framework : Laravel, Express.js, Spring Boot, Nest.js, Vue, React.js, Next.js, Nuxt, TailwindCSS, Bootstrap

Technologies : REST APIs, GraphQL, OOP, AWS, Docker, Linux, Git, Domain Driven Design, Redis

Databases: PostgreSQL, MySQL, Mongo DB, Amazon Athena, Google Big Query

AWARDS, PUBLICATIONS & COMMUNITIES

- AWS Certified Developer – Associate | Apr 2025 - Present
- AWS Certified Solutions Architect – Associate | Jan 2023 - Present
- Amazon Web Services Community Builder | Mar 2022 – Present
- AWS Certified Develop Exam Preparation Notes | Jan 2024
- Refactoring Turkish Guide (GitHubRepo) | Mar 2024
- Design Patterns Turkish Pilot (GitHub Repo) | Nov 2023
- Introduction to Cloud Computing with AWS Turkish Manual (GitHub Repo) | Published in Oct 2022
- Microsoft Learn Student Ambassador | Oct 2021 - Jun 2023
- Huawei Student Developers Campus Ambassador | Mar 2022 - Mar 2023
